PPT
PLAYER PERFORMANCE TRACKING
by JPL Data Support

COACH INFORMATION SHEET

Coach with the full picture.

How coach access works, what you can see and how to use PPT with your players between lessons.

How access works

Pending

You request access
Until it is approved, you see nothing of the player's game.

Approved

An admin approves it
Your club or academy admin checks every request.

Viewing

You coach with their data
See their rounds and stats, and add lesson notes.

A product of **JPL Data Support**

You can

- See approved players' rounds and scores
- See stats for driving, approach, short game and putting
- See progress charts, strengths and weak spots
- Add lesson notes to their profile

You can't

- See players you have not been approved for
- See anything while a request is pending
- Approve yourself or other coaches
- Share data outside PPT through the app

The coaching rhythm

BEFORE
Check the numbers
Their last few rounds and the weak spot PPT has flagged.

DURING
Pick one focus
The area costing the most shots, with measurable homework.

AFTER
Write the note
Focus, key feel and homework, added in PPT.

BETWEEN
Watch it move
Is the stat you worked on starting to shift?

Five tips

1. **Agree the definitions** so every player records the same way.
2. **Wait for a sample:** five rounds is a hint, ten is a pattern.
3. **One area at a time.** Leave the rest for now.
4. **Make homework measurable:** "7 out of 10 from four feet".
5. **Review the season** together and set new targets.

Quick answers

How do I get a coach account?
Your club or academy admin sets up roles in PPT.

Why must an admin approve me?
So access is always deliberate, especially for juniors.

One request per player?
Yes, each link is approved on its own.
