PPT
PLAYER PERFORMANCE TRACKING
by JPL Data Support

PLAYER INFORMATION SHEET

YOUR GAME. YOUR DATA. YOUR PROGRESS.

What is PPT?

Player Performance Tracking helps you see where shots are won and lost. Log a few key stats after each round and PPT turns them into charts, strengths, weak spots and targets, so you can practise with purpose and track your improvement over a season.

1 What you record

- Your score for every hole
- Fairways hit, and which way you missed
- Greens in regulation
- Putts, up and downs and sand saves
- Practice sessions and notes

2 What you get back

- Progress charts for scoring and each area
- Your strengths and weak spots
- Targets and the trend towards them
- PDF reports for you and your coach

A round with PPT

Before
Print a tracker or use your scorecard

During
Tick fairways and greens, count putts

After
Log the round in about two minutes

Over time
Your charts show where to improve

Four questions PPT answers

DRIVING	Do my tee shots keep me in play?
APPROACH	How often do I give myself a chance?
SHORT GAME	Do I save shots when I miss a green?
PUTTING	Am I losing shots on the greens?

Useful next steps

On-course stats tracker
A printable card for marking each hole

Stat definitions
Exactly what counts as a fairway, green and more

Reading your stats
What your numbers are telling you

At a glance

2min to log a round

4 areas of your game, tracked round by round

5–10 rounds before clear trends appear

3 · Who can see it

You see everything. **Coaches** only see your data once an admin approves them. **Nobody else**: it is never sold or used for adverts.

Works anywhere

Phone, tablet or computer. No special kit needed.
